Rushiprasad Jadhav

2nd Year IT Student | Aspiring Software Developer | Java, C++ & Data Structures

Pune Division, Maharashtra, India

Summary

I'm a 3rd-year Information Technology student with a strong interest in software development, problem-solving, and emerging AI technologies. I am continuously strengthening my skills in Java, C++, and Data Structures & Algorithms through hands-on practice, academic learning, and real-world projects. I enjoy breaking down complex problems, writing efficient and maintainable code, and continuously expanding my understanding of computer science fundamentals. Alongside my core programming skills, I am actively learning Agentic AI, exploring AI agents, LLM-based applications, and modern AI development workflows. I also have a basic understanding of DevOps concepts, including version control, CI/CD, and deployment fundamentals, and I'm eager to deepen my knowledge in this area. I am seeking internships and entry-level opportunities where I can contribute, learn from experienced professionals, and apply my skills to build impactful software while growing as a developer and AI engineer.

Experience

GDGC DYPCOE

Cloud Coordinator

September 2025 - Present (11 months)

Education

D. Y. Patil College of Engineering (DYPCOE) , Akurdi, Pune

Bachelor of Technology - BTech, Information Technology

Podar International School - India

Secondary School Examination, 10th Grade
